Introducing the PP46d Digital Photo Printer from Polaroid

The perfect tool for
wound care documentation.

Polaroid's new PP46d Digital Printer is easy-to-use and it is ideal for documenting wound care.

The PP46d Digital Printer from Polaroid provides high-quality color prints directly from your digital camera's memory card, enabling you to:

- Document initial status of wounds
- Measure the recovery rate of wounds such as ulcers and pressure sores
- Effectively communicate with colleagues, minimizing the need to write long status/progress reports
- Utilize progressive results to encourage patient treatment plan compliance

Easy-to-use

With the PP46d Digital Printer, it is easy to turn digital files into durable, high-quality 4" x 6" color prints. The PP46d prints in just 90 seconds and it uses a dye sublimation thermal transfer process (four passes, including a protective overcoat), eliminating the need for ink cartridges.

The new digital printer is the perfect resource for visiting nurses, nursing home professionals and woundcare specialists – anyone who needs to turn digital files into photographic prints easily and quickly.

- Sleek, compact design fits easily into healthcare environments – and can be used on the road
- Easy-to-use, even for beginners
- Adobe® Photoshop® Album 2.0 software is included and can be used to identify, organize and share your digital images.

LCD display panel lets you preview images and view printer menu options

Stand-alone capability to print just from your memory card, plus the flexibility to print from a computer.

Print from a wide range of memory cards including Compact Flash (Type 1), Smart Media, Memory Stick (including Pro), and Secure/Digital Multimedia card. The Memory Stick Duo, xD and miniSD require optional adapter.
