

# Introducing the Polaroid PP46d Digital Photo Printer

Create high-quality prints directly from your digital camera's memory card – whenever you need them.

Creating photographic prints from your digital camera's memory card has never been easier, thanks to the new Polaroid PP46d photo printer. It lets anyone turn digital files into durable high-quality 4" x 6" prints in less than two minutes through a dye sublimation thermal transfer process (four-pass).

Designed for stand-alone use, the PP46d can also print from a computer through a USB connection, giving you the flexibility to edit images before printing.

## THE RIGHT CHOICE FOR HEALTHCARE NEEDS.

With its compact design, ease of use, extensive printing options and professional strength and durability, the PP46d can serve a wide variety of applications. It's an ideal resource for dentists, dental labs and specialists – anyone who needs to turn digital files into photographic prints easily and quickly!

- Fits easily into your work environment - even on the road
- Easy to use, even for beginners
- Adobe® PhotoShop® Album Software included

- Stand Alone Capability to print just from your memory card, plus the flexibility to print from a computer.
- Printing options to suit your needs – including five multiple formats and five split-print formats!
- LCD display panel lets you preview images – and view printer menu options.
- Sleek, compact design fits – and goes – anywhere.
- Durability to handle office workloads.
- Turns digital files into photographic documentation.
