

Attendance book.
Security guard.
Hall pass.
Library card.
Lunch money.

(Hardly seems fair to call it an ID card.)

POLAROID DIGITAL ID SYSTEMS ALLOW SCHOOLS TO ENHANCE SECURITY, AUTOMATE TRANSACTIONS, AND SAVE MONEY.

Do More with Less!

It's no secret that school administrators are being challenged to work with tighter operating budgets, while also maintaining a high quality education and a secure environment. Polaroid Digital ID Systems offer educators the ability to produce customized, multi-functional cards that address a variety of needs, including security for employees, students and visitors, automation of library and food services, as well as time and attendance tracking.

Affordable Options that Fit Your Security Needs

Polaroid offers an array of cost-effective, identification card systems, which will provide a secure and protected environment for students and employees. Not only are Polaroid Digital ID products simple and easy-to-use, they can be customized and integrated with your existing database system and software. Whether you need one of our standard, fully functional, turnkey systems or require a customized solution, Polaroid has your answer for achieving optimal security measures.
